

**Post-doctoral Researcher, Cognition and Communication Research Centre,
Northumbria University, Newcastle Upon Tyne, UK**

Post Ref: PSS08/

Salary Scale £25,073 - £35, 469 pa dependent on experience

Required to play a key role in the further development and expansion of research in the Cognition and Communication Research Centre. You will conduct and publish research in cognition and communication in the area of **language and perception/spatial cognition** in collaboration with Professor Kenny Coventry, Director of the Centre, as well as developing an individual programme of research in cognition and communication, evidenced by the submission and production of journal articles and other academic output.

You must have a PHD in psychology/cognitive science and a proven track record of successful research, good knowledge of research methodologies in cognitive science and a sound knowledge of literature on the relationship between language and perception and/or spatial cognition.

More information about the post, and how to apply can be found at:

<http://www.northumbria.ac.uk/sd/central/hr/staffvacancies/pss0803>

Candidates are asked to provide a CV with their application.

Informal enquiries welcome. Please contact Professor Kenny Coventry:

kenny.coventry@northumbria.ac.uk.

Closing Date: 17th February 2009

Selection Date: Week commencing 2nd March 2009
